

P419

Single Bowl Copper Apron Sink

The P419 single bowl apron sink is fashioned from 99% pure-mined copper. Its one-piece construction creates a very strong and durable copper sink. Naturally anti-bacterial and stain-resistant, copper is a low-maintenance metal. Its appearance will change over time as oxidation slowly produces a coating, known as the patina, on the copper surface. The color varies, but is generally a blend of dark browns and greens. The overall dimensions of the P419 are 33 1/4" x 24 3/4" x 9 3/8" for which a custom apron style cabinet is required. A copper strainer and flange are available to fit the 3 1/2" drain opening and a spray insulation coating on the underside of the sink keeps noise to a minimum while preventing condensation. The hand-hammered copper details and farmhouse style facade are sure to add a classic charm to any decor.

Tech Specs

- Farmhouse-Style/Apron Sink Installation
- Hammered Finish
- Center Drain
- One-Piece Construction
- Naturally Antibacterial
- Cardboard Cutout Template Included
- Lifetime Warranty
